

## ΘΕΜΑ 1. ΚΑΤΑΝΟΗΣΗ ΓΡΑΠΤΟΥ ΛΟΓΟΥ

Read the text and decide if each statement (1-10) is True (A) or False (B).

Although people can go on learning while they are physically able to do so, compulsory education ends when school students reach a certain age. This is the picture of what happens in Greece today. The information comes from Laws 1566/1985 and 2640/1998 which relate to Education. Effort has been made to make it simple for everybody to understand.

\*\*\*\*\*

Once High School students finish Junior High School, which usually happens at the age of 15, the Law offers them three options:

- They can stop compulsory education altogether.
- They can continue their compulsory education and attend Senior High School.
- They can attend a Vocational High School (EPAL).

\*\*\*\*\*

Students who continue their education may transfer from one type of school (e.g. Senior High School) to another (e.g. EPAL), if they change their mind later on. This is done only under certain conditions.

\*\*\*\*\*

In High School, Greek students get a general type of education. Almost every town has a Senior High School. Vocational High Schools specialize in various sciences and technical subjects. Only cities and big towns have an EPAL. Also, not every EPAL covers all sciences and specialisations. It is, therefore, probable that the choice of an EPAL, on the part of Junior High School leavers, may mean moving from the area they live in to specialize in what they want.
