

## ΘΕΜΑ 1. ΚΑΤΑΝΟΗΣΗ ΓΡΑΠΤΟΥ ΛΟΓΟΥ

Read the text and decide if each statement (1-10) is True (A) or False (B).

When most Greek parents receive bad school reports for their children, it seems that they are affected much more negatively than their children. "You can't attend Senior High School, so you'd better go to a Vocational High School (EPAL)", parents usually say to a Junior High School leaver whose school report is not especially good. They usually believe that an EPAL is a kind of school for 'failures' and not a school that may be more suitable for the child's skills and abilities. How can one show parents that, if a school report recommends that the child cannot progress in that type of school, they'd better make peace with the fact that:

- a. a type of school may not be suitable for their child, and
- b. a society does not need only doctors and lawyers, but also good technicians of all kinds.

How can one tell parents that they must understand the possible effect on their children if they are not ready for a certain type of school? According to a psychologist, "If the learning load in school is too heavy for the child, hard effort won't build character but it will actually destroy his/her self-confidence". Once parents have realised that their child may not be able to achieve much in a Senior High School, what could they do to make choice of an EPAL school successful for their child?
